How did you start collecting plates? Was there someone who was your mentor?

I started collecting when I asked my Grandfather for some old license plates that were hanging in his barn.

How did you hear about the Arizona Regional?

I bought a plate on eBay from an ALPCA member and found out about the club through that person.

What plates do you collect and which are your favorites? Where do you get most of your plates?

I collect older Vermont and New Hampshire plates. I'm always looking for plates, but especially lower number plates.

Do you have tips for newer members on the best places to acquire plates?

There are better quality plates available at ALPCA regional meets than you can find on eBay.

How often do you make it to Arizona License Plate Society events?

I make it to most of the Arizona meets.

Which plate in your collection has the best story?

Plate #R-18. It was a 1969 New Hampshire plate that I thought went missing on a airline flight just after I got this plate at the 2009 ALPS Wickenburg meet. But it was found later....

How many plates are in your collection? What types? What do you wish you had more of?

I have about 300-400 plates. I especially like New England plates, the Maritimes and Quebec, low number Vermont, New Hampshire, Massachusetts, and Maine. I am always looking for these types of plates.

Do you display your plates?

Not yet.

What other non-license plate hobbies do you have?

I'm into coin collecting. I like old books but I had to get rid of most of my books when I moved to Arizona.
